

INFORMATION ABOUT THE PERSON FILLING THE FORM	
Name and family name	Mehmet CALIKOGLU
Research organization	SAFRI
Position in the organization	Deputy director
Country	Turkey
E-mail	calikoglumehmet@hotmail.com
EXPERIMENTAL SITE ¹	
Name of the site	Mediterranean Cypress progeny trial www.baoram.gov.tr
Location of the site	Turkey Dösemealti, Antalya Centre -
Start date	2001
Characteristics of the forest ecosystem where it is located	Typical Mediterranean lower elevation (<400m) zone with pure <i>P.brutia</i> stands and <i>P.brutia</i> - maquis mixtures. Elevation: 150m. Long.: 30°40'30.04" Lat: 37°00'04.93" Slope: Flat. Soil Type: Deep, sandy-loam on travertine rock, alkaline.
Keywords	<i>Cupressus sempervirens</i> , progeny trial, genetic variation, heritability, genotype-site interaction
Scientific characteristics	Established to find the fast growing families and to conserve the natural <i>Cupressus sempervirens</i> sources ex-situ Hundreds of families from every natural <i>Cupressus</i> population of Turkey including both isolated ones and the widest (Köprülü Canyon) Accessibility, homogeneity, higher site index, typical (representative) Mediterranean Cypress Provenance-Progeny Trials (1999-2019)
Technical characteristics	Established with 204 families from 13 natural populations in randomized complete block design with 5 replication each has 4 tree rows per family Dbh, height, stem form -
SCIENTISTS AND/OR TECHNICIANS IN CHARGE OF THE INFRASTRUCTURE	
Principal investigator	Mehmet CALIKOGLU calikoglumehmet@hotmail.com
One additional line per person	Alper Ahmet OZBEY alperahmetozbey@ogm.gov.tr
ADMINISTRATIVE INFORMATION	
Availability for participating in mutual measurements	Mehmet CALIKOGLU calikoglumehmet@hotmail.com Only under the permission of General Forest Directorate of Turkey
Availability for accessing the data collected	- -
Institution that manages the site	Batı Akdeniz Ormançılık Araştırma Enstitüsü, Southwest Anatolia Forest Research Institute (SAFRI) www.baoram.gov.tr
